APRIL 2006 PRESIDENT'S MESSAGE

Dear MARLS Members,

I am looking forward to my term as President to continue to serve MARLS. I have always enjoyed participating in MARLS. My participation the last few years makes me realize what a great association that we share. Being able to sit on the Board of Directors as a chapter president has given me the insight to see what a great team of professionals we have in our membership.

MARLS is continuing to take an active role in our states legislative process and that is one thing we should all be keeping a close eye on. I have had the opportunity to sit on the Senate Joint Resolution 11 sub-committee with Rick Gustine and Jim Kembel. These two gentlemen are a huge asset to MARLS and I would like to applaud their continuing efforts and dedication to our profession. The SJR 11 committee has been meeting once a month in Helena since September.

In the last few years I have enjoyed helping out in the Trig Star program on the local level. I would like to thank Randy Thomas for his hard work and continuing dedication to the orchestration of this program in Montana. Also I would like to thank all the persons who may or may not be surveyors who have volunteered their time to help administer these test. Trig Star continues to be a great success in providing students with information regarding land surveying and the opportunity to be presented with a scholarship.

I would like to take this opportunity to thank all those who have taken the time out of their busy schedule to make MARLS what it is today. On behalf of MARLS I look forward to serving and representing you as president to the best of my ability. Have a great and profitable summer.

Respectfully Submitted

Joseph L. Kauffman

Joseph L. Kauffman, PLS
