

## Flathead County GIS Interactive Mapping Site

The GIS Interactive Mapping Site will be replaced with a new mapping application "late spring/early summer" this year.

In a nutshell, unsupported software and new technology in the GIS world dictate this move. A fair amount of surveyors and their employees use the GIS IMS site to research parcel information, addresses, ownership, etc.

Please take the opportunity to familiarize yourself with the new mapping app before the old one gets turned off.

The IMA app, as well as the other GIS apps can be used on mobile devices.

IMS is/was a great resource with so many layers in one place and we understand that there will be a bit of pushback from current IMS users. Unfortunately, we have no choice but to move forward.

Please contact the GIS office at 406.758.5540 or email [gis\\_online@flathead.mt.gov](mailto:gis_online@flathead.mt.gov) with any questions.

Link to new site that houses all GIS apps.
