Position Title:

Surveyor - Butte - (20140990)

Description:

At MDT, we take seriously our mission of providing a transportation system and services that emphasize quality, safety, cost effectiveness, economic vitality and sensitivity to the environment. Involving Montana's residents and communities is a vital part of fulfilling that mission.

MDT employees are encouraged to reach their full potential on the job. The work we do at MDT has a direct impact on our community and the quality of life here in Montana. We work with communities to deliver custom transportation solutions. As an organization, we provide flexible hours, alternative work schedules, and a relaxed family-friendly environment to help MDT employees balance their personal and professional interests. MDT is committed to continuous improvement of our employee safety program, our safety and health processes, and to achieving an injury-free workplace. Visit our website at: <https://www.mdt.mt.gov/>

About Butte – "The Richest Hill on Earth"

The Richest Hill on Earth, built from its' bustling mining days, Butte has progressed through times of change and yet maintained its sense of

community. "Our Lady of the Rockies," a 90-foot statue sitting atop the Continental Divide at 8,510 ft., overlooks Butte and exemplifies a "can do" attitude that has achieved our city an All-American status. The Mining City not only offers countless hours of historic mining exploration but also caters to the outdoor enthusiast. If it can be done in the great outdoors, Butte, and its surrounding area can serve as your playground. Its' pinpoint location allows for un-congested access to any of your destinations in the great "Treasure State." Butte, a community with a rich, storied past and an ever-promising future where our people are the most valuable resource. We are "The Richest Hill On Earth." Duties:

This position is a professional land surveyor for the MDT Butte District. The position is responsible for planning and performing professional survey work. Examples of duties include: organizing and overseeing straightforward survey projects, signing off on uncomplicated survey projects, analyzing evidence to determine boundary locations, staking/ documenting property boundaries, coordinating survey reviews to ensure quality, consistency, efficiency, and compliance with established standards and policies, making professional level survey calculations, carrying out complex drafting, providing training to field survey crews and coordinating the operation and maintenance of survey equipment within the Unit. The Survey III is in responsible charge of all survey work being performed under their PLS license. Will perform additional duties assisting in utilities as needed.

Preference is placed on qualifications for a Surveyor III (PLS) or qualifications for Surveyor II with a Montana Land Surveyor Intern (LSI) certificate; qualifications for Surveyor I may be considered.

Will involve mostly day travel throughout the Butte District and to occasional remote work sites to perform various survey duties.

Please address the following supplemental question(s) and submit with your application:

MDT survey positions require specialized knowledge and skills in several survey subject areas. Summarize your experience in the following areas. Specific work examples and/or college education can be used to demonstrate levels of proficiency:

A) Cadastral Survey

B) Control Survey

C) Other Surveys

D) Computer/Software

E) Survey Equipment

The Montana Department of Transportation (MDT) is committed to continuous improvement of our employee safety program, our safety and health processes, and to achieving an injury-free workplace.

Qualifications:

This position is covered by the Surveyor Career Ladder Advancement Policy. Education and experience will determine salary placement.

BAND 4 - Surveyor I

- The required knowledge and skills are typically acquired through a combination of education and experience equivalent to an Associate's or Bachelor's Degree in Land Surveying, Geomatics, or a related field from an accredited college or university. Related degrees must include significant coursework in survey related maths, drafting, and surveying techniques, principles and practices.
- No additional certifications, licensure, other credentials, or experience is required.

BAND 5 - Surveyor II

- The required knowledge and skills are typically acquired through a combination of education and experience equivalent to an Associate's or Bachelor's Degree in Land Surveying, Geomatics, or a related field from an accredited college or university. Related degrees must include significant coursework in survey related maths, drafting, and surveying techniques, principles and practices.
