

EMPLOYMENT OPPORTUNITY / INTERNSHIP

Morris Land Surveys, P.L.L.C. is a small private firm with medium capabilities, centrally located in Choteau, Montana. The firm is comprised of talented and professional personnel who utilize modern equipment to offer services throughout Montana and Idaho to a variety of clients in the Commercial, Energy, Industrial, Municipal, and Residential markets.

Currently, Morris Land Surveys is seeking an individual for a summer intern position who is interested in working in the Profession of Land Surveying. This position will require both office and field employment in support of client driven projects. A preferred candidate will have knowledge, education and experience pertaining to Leica equipment and office software, the Public Land Survey System, and AutoCAD.

Specific job duties will be in support of existing survey operations. This position will allow for personal and professional growth in the field of surveying and land development.

Those interested are suggested to send information to:
