SURVEY:

C&H Engineering and Surveying, (now IMEG) has an immediate opening for a **Land Surveyor** located in Bozeman, MT. Essential functions of this position will include management of a variety of projects including large residential subdivisions, commercial construction sites, ALTA surveys, boundary retracements, and topographic maps. Interested applicants should have the ability and desire to obtain a PLSI. This is a full-time salaried position with high growth potential.

Qualifications:

- B.S. degree in civil engineering
- Registration as an LSI (PLSI preferred)
- 0-5 years' experience – less experienced surveyor will start as a rodman
- Knowledge of survey practices and construction staking.
- Experience with construction setup, manual labor, reading field notes, staking plots on construction projects, and using GPS equipment
- Ability to function independently and in a team-oriented environment.
- Ability to establish and maintain effective working relationships with clients and co-workers
